BLUEPRINT

One Cut

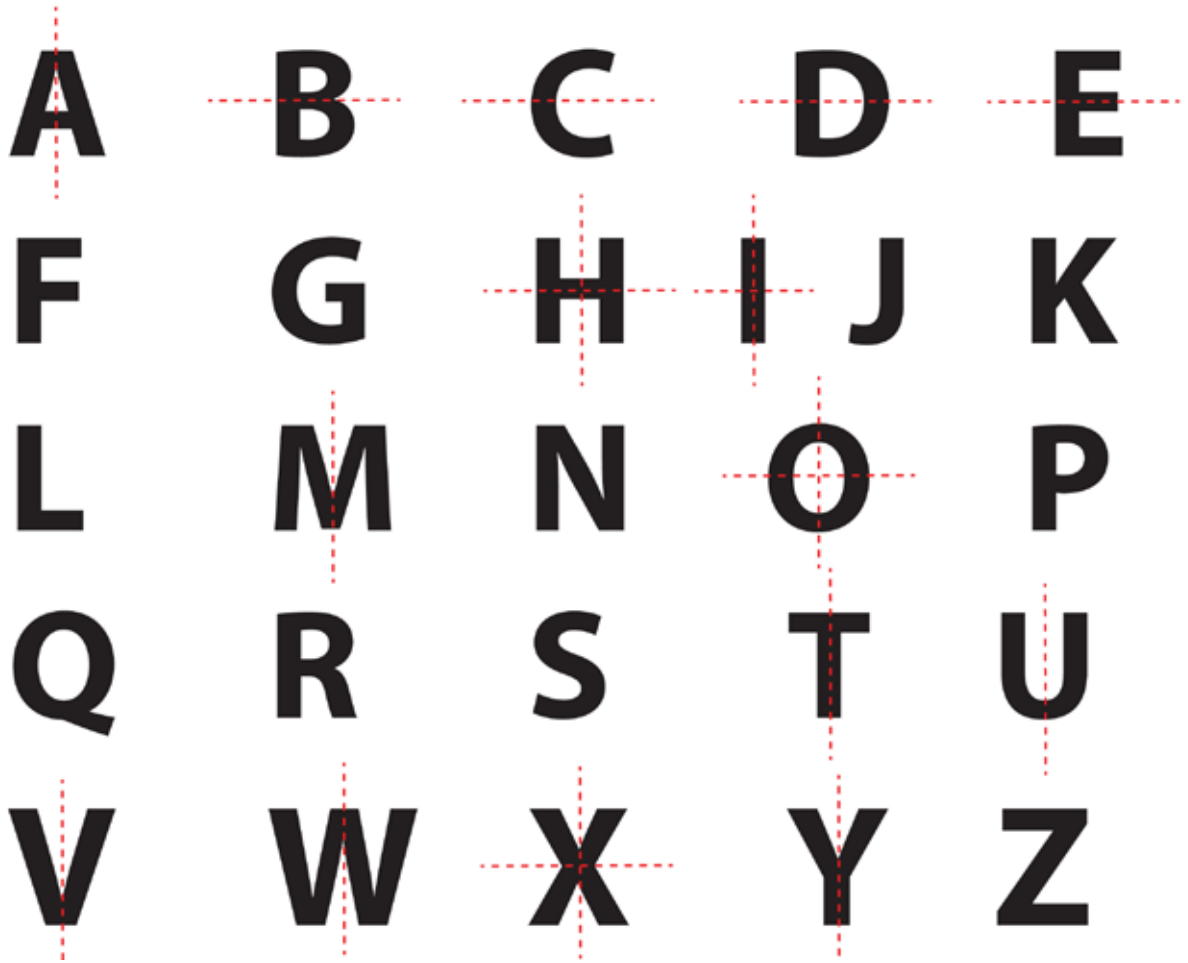

Student Handout

In the following handout, students will be required to:

- Draw lines of symmetry for the letters of the alphabet
- Answer questions about symmetry in the alphabet

Provided in this document are sample answers (page 2) and a blank handout (page 3). The blank handout should be made available to each student prior to the activity.

Where possible, draw the line of symmetry for each of the following letters:

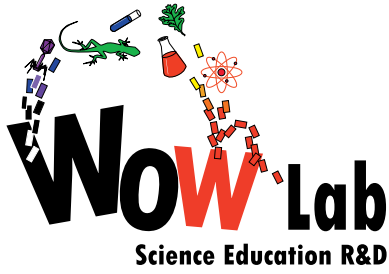

Can you think of any words which have a line of symmetry?

A: WOW, YAY, MOM

Does the font make a difference in the symmetry of some of the letters?

A: The font does make a difference, because in this handout the K is not symmetrical, but in the one cut alphabet, the K is symmetrical.
