

## Prep Instructions

The following items will be required for the prep of this activity:

- origami paper for the "WOW" one cut (optional)
- printer paper
- photocopier or printer

### Step 1

Print the shape templates or individual letters of the alphabet on regular printer paper. The large size of each letter will allow the students to make precise folds without much difficulty. If doing the "WOW" one cut, using origami paper can be beneficial as it is thinner and easier to fold.

To help select which letter templates to use, the letters have been categorized according to their level of difficulty, which varies depending on the number of required folds and the overall complexity. It's a good idea to begin with "easy" and "intermediate" letters, which will clearly demonstrate the basics of the one cut technique. For a greater challenge, the "hard" letters may be attempted.

*Easy* - B, C, H, I, L, M, O, T, U, V, W and X

*Intermediate* - D, E, F, K, P and Y

*Hard* - A, G, J, N, Q, R, S and Z

*Very Hard* - "WOW"
