

Time / Cost Estimate

Time: Prep - 15 min / Active - 1 hr

Prep for this activity entails printing out or photocopying enough polygonal shape and letter templates for the class.

The active time depends upon the number and complexity of the shapes or letters which are attempted. For simpler shapes, a typical student will spend a few minutes on each shape, but more challenging letters (see *Prep Instructions* for difficulty rating) can take upwards of 25 minutes.

Initial Cost: <\$5.00

The only costs associated with the activity are for printing or photocopying the *One Cut* templates. One sheet of paper is required for each shape or letter that will be cut out.
