The Siphontific Method

Resources

Websites

The following site has a video of an enormous siphon in South Australia. It was used to transfer the equivalent of 4000 Olympic swimming pools from the Murray River system into Lake Bonney:

Hughes, Stephen W. "A practical example of a siphon at work." *Queensland University of Technology*. 2010. Accessed 14 July 2011. <http://eprints.qut.edu.au/31098/>

The steps of the scientific method are well explained in the following website:

"Steps of the Scientific Method." *Science Buddies*. Accessed 14 July 2011. http://www.sciencebuddies.com/mentoring/project_scientific_method.shtml
